TANK MIX SHEET

Difenostar®

The following tank mixes are supported for physical compatibility with Difenostar at recommended rates of use and will mix in the sprayer tank.

No tests have been undertaken on crop safety or product performance, therefore use is at user's own risk.

Life Scientific will support the physical compatibility of 2 or 3 way tank mixes of Difenostar with any of the fungicides, herbicides, insecticides, PGR's or adjuvants listed below.

Always use constant agitation of the sprayer tank during mixing, transportation and application. Spray immediately.

Before using any tank mixture, consult and comply with the recommendations of the partner products.

Each product should be added separately to the bulk of the water in the spray tank and thoroughly mixed before adding the next chemical.

PLEASE NOTE:

The following tank mixes are supported for physical compatibility with Difenostar at recommended rates of use and will mix in the sprayer tank. No tests have been undertaken on crop safety. Provided that all product recommendations are adhered to, Difenostar may be applied in 2 or 3-way mixtures with the following pesticides:

Azoxystar/Amistar

Ambarac/Caramba

Elatus Era
