

The following tank-mixes are supported for physical compatibility with FIRESTARTER at recommended rates of use and will mix in the sprayer tank.

No tests have been undertaken on crop safety or product performance. Use is at user's own risk.

Life Scientific will support the physical compatibility of tank-mixes of FIRESTARTER with one herbicide and one insecticide from the tables below.

Always use constant agitation of the sprayer tank during mixing, transportation and application. Spray immediately.

Before using any tank-mixture, consult and comply with the recommendations of the partner products.

Each product should be added separately to the bulk of the water in the spray tank and thoroughly mixed before adding the next chemical.

For any tank-mix, observe all restrictions, requirements and directions for use on the labels of both products, including earliest and latest timings.

PLEASE NOTE:

The following tank mixes are supported for physical compatibility with FIRESTARTER at recommended rates of use and will mix in the sprayer tank. No tests have been undertaken on crop safety. Provided that all product recommendations are adhered to FIRESTARTER may be applied in mixture with the following pesticides:

HERBICIDES

Atlantis OD + PROBE/Biopower
Avadex Factor
CINTAC + PROBE/Biopower
Chekker
