

The following tank-mixes are supported for physical compatibility with ORASO PRO at recommended rates of use and will mix in the sprayer tank.

No tests have been undertaken on crop safety or product performance. Use is at user's own risk.

Life Scientific will support the physical compatibility of ORASO PRO with one herbicide and one insecticide from the following list.

ORASO PRO can be applied in a 2-way mixture only with AMBARAC or Caramba.

Before using any tank-mixture, consult and comply with the recommendations of the partner products. Each product should be added separately to the bulk of the water in the spray tank and thoroughly mixed before adding the next chemical.

Always use constant agitation of the sprayer tank during mixing, transportation and application. Spray immediately.

PLEASE NOTE:

The following tank-mixes are supported for physical compatibility with ORASO PRO at recommended rates of use and will mix in the sprayer tank. No tests have been undertaken on crop safety. Provided that all product recommendations are adhered to, ORASO PRO may be applied in mixture with one of the following herbicides and one of the following insecticides. ORASO PRO can only be applied in a 2-way mixture with AMBARAC or Caramba.
