

The following tank-mixes are supported for physical compatibility with TRINESTAR at recommended rates of use and will mix in the sprayer tank.

No tests have been undertaken on crop safety or product performance. Use is at user's own risk.

Life Scientific will support the physical compatibility of 2 or 3-way tank-mixes of TRINESTAR + chlormequat with the fungicides, herbicides, insecticides, or PGRs listed below.

Mixtures of TRINESTAR with Arizona, Phoenix, Revystar XE or Univoq are 2-way only.

The physical compatibility of TRINESTAR + chlormequat + sulfonyl urea + fungicide is only supported in winter wheat.

The physical compatibility of TRINESTAR + chlormequat is not supported in spring oats.

Always use constant agitation of the sprayer tank during mixing, transportation and application. Spray immediately.

Before using any tank-mixture, consult and comply with the recommendations of the partner products.

Each product should be added separately to the bulk of the water in the spray tank and thoroughly mixed before adding the next chemical.

PLEASE NOTE:

The following tank-mixes are supported for physical compatibility with TRINESTAR at recommended rates of use and will mix in the sprayer tank. No tests have been undertaken on crop safety. Provided that all product recommendations are adhered to TRINESTAR may be applied in mixture with the following pesticides:

Tank-mix sheet produced 08/05/2024.

TRINESTAR + chlormequat + sulfonyl urea + fungicide physical compatibility supported in wheat only.

A Do not use in spring barley.

B Only apply with TRINESTAR at 0.2 L/Ha if necessary as crop phytotoxicity can occur. Leave 5-7 days between applications of NIANTIC (or Atlantis) + PROBE/Biopower and TRINESTAR.

C Can cause crop phytotoxicity in winter & spring barley and oats when mixed with TRINESTAR.

D Physical compatibility of TRINESTAR + chlormequat not supported in spring oats.

E Mixtures of TRINESTAR with Arizona, Phoenix, Revystar XE or Univoq are 2-way only.

Life Scientific Ltd will not support the mixing of TRINESTAR with any product containing carfentrazone-ethyl.

AURELIA, AZOXYSTAR, LAMBDASTAR, NIANTIC, SUMIR, TRINESTAR and ZONOR are registered trademarks of Life Scientific. AMBARAC and KIPOTA are trademarks of Life Scientific. AMBARAC contains metconazole. AURELIA contains prothioconazole. AZOXYSTAR contains azoxystrobin. Trinestar contains trinexapac-ethyl. KIPOTA contains clodinafop-propargyl + cloquintocet-mexyl. LAMBDASTAR contains lambda-cyhalothrin. NIANTIC contains mesosulfuron-methyl and iodosulfuron-methyl-sodium. SUMIR contains florasulam. TRINESTAR contains trinexapac-ethyl. ZONOR contains tebuconazole. All other products are those of other manufacturers where proprietary rights may exist.

Use plant protection products safely. Always read the label and product information before use.
